PROFESSIONAL SUMMARY

Detail-oriented Financial Accountant with hands-on experience in financial reporting, cost analysis, inventory control, and ZATCA-compliant VAT reporting. Proficient in accounting systems including Daftra, Phenix Accounting System, and Maximum ERP. Skilled in transforming financial data into actionable insights to support decision-making. Committed to accuracy, compliance, and delivering measurable value.

WORK EXPERIENCE

Financial & Cost Accountant | Modern Supplies & Construction for General Contracting Est.

April 2025 — Present · Jeddah, Saudi Arabia

- Proposed and implemented Daftra accounting software, streamlining daily operations and simplifying financial report generation.
- Recorded daily transactions — sales invoices, purchase orders, expenses and cash receipts — using Daftra and Microsoft Excel.
- Monitored and reconciled supplier and customer accounts, ensuring entry accuracy and timely settlements.
- Prepared revenue and expense reports for management review on a regular basis.
- Participated in pricing exercises and contributed to profit-margin calculations.
- Collaborated with the production team to map manufacturing stages (cutting, painting, galvanizing, installation, packaging) to their respective cost centres.
- Produced periodic financial reports and management-ready summaries.

Financial Accountant | Masafi Bottled Drinking Water Company

July 2024 — March 2025 · Qassim, Saudi Arabia

- Prepared journal entries and posted financial data with high accuracy, significantly reducing accounting errors.
- Cleared all outstanding delayed invoices within one month, improving the company's cash-flow position.
- Expanded the chart of accounts by adding 20+ new accounts, enhancing reporting granularity.
- Conducted detailed supplier reconciliations, resolving financial discrepancies efficiently.
- Improved inventory control, reducing stock variances by 20%, contributing to a significant reduction in stock variances.
- Oversaw VAT return preparation and implemented controls that minimized tax-related errors.

Warehouse Keeper / Storekeeper (Condensed for relevance)

January 2022 — February 2023 · Suez, Egypt

- Managed inventory using Maximum ERP with real-time accuracy.
- Monitored stock levels to ensure uninterrupted production.
- Prepared inventory reports and analyzed stock movement trends..
